

Pitt Public Health

www.publichealth.pitt.edu

Established in 1948, the Graduate School of Public Health is accredited by the Council on Education for Public Health. Students at Pitt Public Health can focus their studies in any one of our seven academic departments, or broaden their studies, across disciplines within Pitt Public Health or across schools within the university. Programs and specialty tracks are detailed on our web site. Pitt Public Health has consistently ranked in the top five among state-supported schools in NIH research grant funding, with a total amount of \$44 million.

DEAN: Donald S. Burke, MD

DEGREE AND CERTIFICATE PROGRAMS, AREAS OF CONCENTRATION, AND CONTACTS:

TYPES OF FINANCIAL AID

School-wide Scholarships

The Office of Student Affairs announces applications and nominations for these scholarships annually. Students may ask faculty to provide letters of support, and may download an application from the web page address provided in the announcement.

Campaign for the Next 5000 Alumni: Nomination by department required

Dean's Endowed Doctoral Scholarship: for doctoral students; nomination by department required

Duncan Scholarship: priority given to disadvantaged students; nomination by department required

Goldstein Scholarship: for students studying either the environmental causes of health disparities or the practice of public health- purpose alternates yearly.

Commonwealth Fund for Underrepresented U.S. Students: Nomination by department required

Departmental Scholarships

Several departments have partial scholarship funds. Speak with your department student services coordinator about their availability and the process by which a student is considered.

Traineeships, Fellowships, Assistantships

Each department may award a limited number of student assistantships, usually to doctoral students. Assistantships consist of full or partial tuition support and a stipend in return for certain duties under the supervision of a faculty member. Most initial assistantship appointments are made at the start of the fall term, although occasionally awards may be made in the spring term.

Several departments have traineeships available for student in particular concentrations. In the Department of Epidemiology, pre- and post-doctoral fellowships exist for some concentrations. The Department of Behavioral and Community Health Sciences has traineeships for social workers holding the MSW degree and concentrating in public health social work. The Department of Biostatistics offers pre-doctoral traineeships, as well as a minority health fellowship. The Department of Infectious Diseases and Microbiology offers pre-doctoral and doctoral traineeships.
