DEPARTMENT OF EPIDEMIOLOGY 2018 SPRING SEMINAR

TOPICS IN EPIDEMIOLOGY: Disease Prevention and Early Detection

Ana Maria Malinow, MD, MSHCPM

- Department of Pediatrics, Division of General Academic Pediatrics, University of Pittsburgh School of Medicine
- Health Policy and Management, University of Pittsburgh, Graduate School of Public Health

Dr. Ana Malinow received her MD degree from Case Western Reserve University, and her training in pediatrics at Rainbow Babies and Children's Hospital in Cleveland. In 1998, she moved to Houston, Texas, where she joined the faculty of Baylor College of Medicine. While in Houston, she co-founded Health Care for All Texas, a state-wide organization to promote single payer health care and Doctors for Change to improve health care access to Houston's 1.1 million uninsured. She has been a guest speaker on health care reform and featured on national and international television and radio. She has served as president of Physicians for a National Health Program, an organization of 20,000 physicians that support single payer national health care. She is the recipient of the 2009 RESULTS Seeds of Hope Award given to individuals that promote public and political will to end poverty.

In 2010, she moved to Pittsburgh, PA, where she received a degree in Health Care Policy and Management from Carnegie Mellon University. She is currently Associate Professor of Pediatrics in the Department of Pediatrics at the University of Pittsburgh School of Medicine, as well as Associate Professor of Health Policy and Management in Pitt's Graduate School Of Public Health. Her current interests include geographic information systems, improving access to health care, and community involvement.

A National Health Program: Why? Why Not?
