## IDM-MIC MPH Competencies

IDM-MIC 1	Develop knowledge related to domestic and global infectious disease pathogenesis, prevention, clinical diagnosis
IDM-MIC 2	Describe stigma and the impact on the prevention and control of infectious diseases
IDM-MIC 3	Demonstrate knowledge and approaches for clinical, behavioral, biomedical interventions, and advocacy to impact the prevention, control, and/or elimination of infectious diseases. and intersecting clinical conditions, populations, and environments
IDM-MIC 4	Develop, implement, or evaluate infection prevention in clinical settings, including surveillance, containment, and policies for prevention, control, and intervention
IDM-MIC 5	Synthesize skills and knowledge of infectious disease research, practice or policies as applied to infectious clinical conditions, outbreaks/clusters in clinical, and/or community healthcare settings
IDM-MIC 6	Describe and discuss evidenced-based approaches to the prevention and treatment of infectious diseases

## CEPH MPH Foundational Competencies

MPH 1	Apply epidemiological methods to settings and situations in public health practice
MPH 2	Select quantitative and qualitative data collection methods appropriate for a given public health context
MPH 3	Analyze quantitative and qualitative data using biostatistics, informatics, computer-based programming, and software, as appropriate
MPH 4	Interpret results of data analysis for public health research, policy or practice
MPH 5	Compare the organization, structure, and function of health care, public health, and regulatory systems across national and international settings
MPH 6	Discuss the means by which structural bias, social inequities and racism undermine health and create challenges to achieving health equity at organizational, community and systemic levels
MPH 7	Assess population needs, assets, and capacities that affect communities' health
MPH 8	Apply awareness of cultural values and practices to the design, implementation, or critique of public health policies or programs
MPH 9	Design a population-based policy, program, project, or intervention
MPH 10	Explain basic principles and tools of budget and resource management
MPH 11	Select methods to evaluate public health programs
MPH 12	Discuss the policy-making process, including the roles of ethics and evidence
MPH 13	Propose strategies to identify stakeholders and build coalitions and partnerships for influencing public health outcomes
MPH 14	Advocate for political, social, or economic policies and programs that will improve health in diverse populations
MPH 15	Evaluate policies for their impact on public health and health equity
MPH 16	Apply leadership and/or management principles to address a relevant issue
MPH 17	Apply negotiation and mediation skills to address organizational or community challenges
MPH 18	Select communication strategies for different audiences and sectors
MPH 19	Communicate audience-appropriate (i.e., non-academic, non-peer audience) public health content, both in writing and through oral presentation
MPH 20	Describe the importance of cultural competence in communicating public health content
MPH 21	Integrate perspectives from other sectors and/or professions to promote and advance population health
MPH 22	Apply a systems thinking tool to visually represent a public health issue in a format other than standard narrative
